The areas given here are from the mean (zero) to $z$ standard deviations to the right of the mean. To get the area to the left of $z$, simp y add .5 to the value given on the table.

[^0]
[^0]:    Since $\mathrm{d}_{1}=0.53$ is positive, add .5 to
    0.2019 to obtain 0.7 (ignore the minor
    rounding differences). Thus, $\mathrm{N}\left(\mathrm{d}_{2}\right)=0.7$.
